Second-class OTC drugs

Natural cardiotonic

# KYUSHIN®

(® shows a registered trademark)

**Palpitation** and **panting** are caused by various causes such as a decrease in functions of the circulatory and respiratory system, excessive tension and stress, menopause, disorder of autonomic nerve caused by cold and heat, overwork and lack of sleep, excessive smoking and alcohol, obesity, hard exercise, and so on.

**Palpitation** and **panting** are also caused easily by an age related decline in bodily functions.

Moreover, if you leave those symptoms behind, that will be a trigger to cause various illnesses that gradually causes a decrease in your quality of life.

**KYUSHIN** shows the excellent efficacy on the palpitation and panting to improve the circulation by each merit in nine kinds of natural drugs originating in animal and plants.

Furthermore, restorative by **KYUSHIN** is effective when person feels the decline of energy by listlessness of the body, feels the decline of consciousness by the heat etc., and has vertigo and dizziness.
